- (1) Scope of Rules. These rules are applicable to child care agencies subject to licensing by the Department of Human Services as defined by T.C.A. §§ 71-3-501 et seq. Any conflict between this Chapter and any other rules of the Department concerning the licensing procedures and regulations governing these agencies or the rules and licensing and appeal procedures for these agencies shall be resolved by reference to these rules.
- (2) Applicable Requirements. - (3) The Department maintains a link on its website to current statutes, rules, policies, and guidelines that are prerequisites for licensure. 7. The applicant has the ability and intent to comply with the licensing law and regulations;

- (b) If the Department determines that the conditions of the applicant's facility, its methods of care or other circumstances warrant, it may issue a restricted license that permits operation of a child care agency, but limits the agency's authority in one (1) or more areas of operation.

- (b) During the one hundred and twenty (120) day temporary licensure period the licensee must attain and maintain compliance with all applicable licensing regulations; Failure to attain and maintain such compliance during this period may result in the denial of the application for an Annual License or restriction of the Annual License.
- (c) Following the issuance of an annual license a child care center may operate without an on-site director for a period of no more than sixty (60) days total within the licensing year. A qualified person, as determined by the Department, shall be in charge in the interim.

- (13) The Annual License Determination.
- (a) Within one hundred twenty (120) days of the issuance of the temporary license, the Department shall determine whether an annual or restricted annual license shall be issued to the applicant or be denied. If the annual license is not issued or not denied at the end of this period, the temporary license shall remain in effect, unless suspended or revoked, pending the Department's determination regarding issuance or denial of the annual license.
 - (b) The Department shall issue an annual license if the Department determines that the applicant:
 1. Has fully complied with all laws and regulations governing the specific classification of child care agency for which the application was made;
 2. Has demonstrated the ability to maintain compliance with all licensing regulations during the annual license period; and
 3. Has a reasonable likelihood of maintaining the annual license by demonstration of the ability to continue to comply with all laws and regulations governing the specific classification of child care agency for which the application was made.
 - (c) If the Department determines that any of the requirements set forth in this Chapter has not been, or cannot be, satisfactorily met, it may deny the annual license.

 - (e) Upon issuance of an annual license, the licensee must maintain compliance with all applicable licensing regulations throughout the licensing period.

(14) License Renewal Evaluation Process.

- (a) Agencies currently licensed by the Department must submit an application for renewal prior to the expiration of the existing license. Failure to submit a completed application, including the required annual licensing fee prior to the expiration of the current license shall result in the automatic termination of the

annual license upon the expiration date, and the child care agency shall cease operations immediately.

- (b) In addition to the evaluation requirements set forth above in this rule, applicants for renewal shall be evaluated and shall be issued a report card, as set forth in Chapter 1240-04-07.
 - (c) The Department shall issue a new annual license upon demonstration of compliance with all laws and regulations governing the specific classification of child care agency, and, if the applicant has demonstrated a reasonable probability, based on an evaluation of any violations cited or legal enforcement action taken against the agency during the entire licensing period, that the applicant will maintain compliance with all licensing regulations during the annual license period.
 - (d) If the Department determines that any of the requirements set forth in this Chapter has not been, or cannot be, satisfactorily met, then it may deny the renewal of the annual license.
 - (e) If the Department determines that the conditions of the applicant's facility, its methods of care or other circumstances warrant, it may issue a restricted annual license that permits operation of a child care agency, but limits the agency's authority in one (1) or more areas of operation.
- (15) Upon receipt of an application for a license, and throughout the temporary licensing period and during the licensing period, immediate access during operating hours to all areas of the child care facility shall be granted to all Department representatives and other inspection authorities (i.e., fire safety, sanitation, health, the Department of Children's Services, etc.).

 - (d) Before and After School Services.

In order for a child care agency to offer before or after-school services under this part, the Department must issue a license bearing a notation that the agency is authorized to provide before or after-school care services. An agency may not offer such services unless its license bears such notation.

(17) Scope of Licensed Operation.

- (a) Licensed capacity shall be designated on the license. All programs shall operate within the licensed capacity, the hours of operation, the specific age ranges, services offered, and at the address designated on the license.

 - (ii) Staffing ratios and group sizes.
 - 3. Each agency must function as a stand-alone child care agency, with separate staff.
 - 4. The director/primary caregiver of a child care center must be present at least one half ($\frac{1}{2}$) of the time that the agency is open for operation. If the director/primary caregiver serves multiple sites they must be present at each child care agency at least one half ($\frac{1}{2}$) of the time each agency is open for operation.
 - 5. The agency may not share facilities with the exception of outdoor equipment and play area, which shall be used by the children from one agency at a given time.
- (b) A child care agency shall only provide child care at the physical location or locations that have been licensed by the Department, with the exception of field trips.

- (e) A child care agency shall not provide care to children enrolled in the child care agency at any location that has not been approved by the Department as child care space under the child care agency's license, with the exception of field trips.

- (f) The provision of unlicensed or unregulated child care at the physical location, or on a contiguous or non-contiguous physical location by the licensee or the licensee's employees or agents, shall be deemed to be the provision of child care under the licensee's control.
 - (g) Actions to transfer children to physical locations that are not approved by the Department as child care space under the child care agency's license in an attempt to avoid any requirements for a license shall be deemed a violation of the child care licensing laws and regulations, and will subject the licensee to immediate legal action.
- (19) If, during any temporary or annual licensing period, the Department determines that one or more areas of operations of the child agency should be modified or discontinued, it may issue a restricted license limiting the child care agency's authority to operate.
- (20) Appeals of the denial or restriction of a temporary or annual license are governed by Chapters 1240-04-05 and 1240-05-13, T.C.A. §§ 71-3-509—510 and the Uniform Administrative Procedures Act, T.C.A. §§ 4-5-301 et seq.

- (a) A license is not transferable from one location to another or from one licensee/operator to another.
 - (b) Any sale, lease or transfer of control of the child care agency by any other arrangement to another person, entity, licensee or operator voids the existing license immediately and any pending appeal involving the status of the license, and the agency shall be required to close immediately.
 - (c) If the buyer, lessee or transferee has made application for, and has been granted a temporary license, the agency may continue in operation under the direction of the new licensee. The new licensee in such circumstances may not be the seller, lessor or transferor or any person or entity acting on behalf of the transferor.
 - (d) If the Department determines that any person or entity has transferred nominal control of an agency to any persons or entities who are determined by the Department to be acting on behalf of the purported seller, lessor or transferor in order to circumvent a history of violations of the licensing law or regulations or to otherwise attempt to circumvent the licensing law or regulations or any prior licensing actions instituted by the department, the Department may deny the issuance of any license to the applicant. The denial of the license may be appealed as provided in T.C.A. § 71-3-509.
 - (e) The license of any agency shall not be voided nor shall any pending appeal be voided pursuant to this subparagraph (c) solely for the reason that the agency is subject to judicial orders directing the transfer of control or management of a child care agency or its license to any receiver, trustee, administrator or executor of an estate, or any similarly situated person or entity.
 - (f) If the current licensee dies, and provided that no licensing violations require the suspension, denial or revocation of the agency's license, the Department may grant family members of the licensee, or administrators or executors of the licensee, a new temporary license to continue operation for a period of one

hundred twenty (120) days. At the end of such period, the Department shall determine whether an annual or extended license should be granted to a new licensee as otherwise provided in this chapter.

- (g) Nothing in this subparagraph (c) shall be construed to prevent the Department from taking any regulatory or judicial action as may be required pursuant to the licensing laws and regulations that may be necessary to protect the children in the care of such agency.

(22) Revocations and Suspensions of Licenses.

- (a) All or any part of the license may be revoked at any time upon thirty (30) days notice to the licensee; or if the health, safety, or welfare of the children in care imperatively requires, the license, and any operating authority granted by the license, may be suspended immediately.
- (b) The Department may accept the licensee's written agreement to voluntarily suspend or surrender the agency's license. The written agreement of the licensee to voluntarily surrender or suspend the license shall become effective immediately upon signature of the licensee or other agency staff person with apparent authority, and shall act as a waiver of any revocation or suspension hearings regarding the license.
- (c) The Department shall consider whether to take action to revoke, restrict, or deny the agency's license within thirty (30) days of the date of a voluntary suspension or surrender.

 2. The time period in which the program or activity provides these opportunities is consistent with a reasonable time period for the completion of the program or activity, considering the age of each child served and the nature of the program;
 3. The primary purpose of the program or activity is not routinely available or could not be made routinely available in the typical child care settings regulated by the Department;
 4. Parents could reasonably be expected to choose the program or activity because of the unique nature of what it offers, rather than as a substitute for full-time, before or after school, holiday or weather-related child care; and
 5. If the program or activity is regulated by any other federal, state or local agency, it is required by such other agency to comply with standards that substantially meet or exceed department licensing regulations.
- (e) The Department shall not be required to grant exemptions to programs or activities that offer otherwise exempt opportunities or services as a mere component of a program or activity that the department determines primarily constitutes substitute child care.
- (f) No program or activity shall be exempt from licensing solely for the reason that the care and supervision of children that constitutes child care is offered only on a part-time or periodic basis.
